Grading - Principal Nowak & Dr. Zellmer

The meeting was started by Mr. Nowak. He and Dr. Zellmer were in attendance to discuss grading mainly at the high school but due to parents with kids in other schools there was discussion about elementary and middle school level grading as well. Sign in sheet with all emails of those in attendance will be given to Mr. Nowak to follow up with future meeting date to continue grading discussion. One concern of parents was that the communication with teachers by the administration needs to be consistent as parents are not getting the same feedback from teachers. Communication to students from the teachers also is not consistent as far as explaining the grading and how it works. Dr. Zellmer said parents need to ask teachers what a 4 should look like and be able to give them an example of level 4 work. This part of the meeting was rather lengthy and we moved to the other side of the library to continue with SSC business while others finished their discussions about grading.
